POP, IMAP, and SMTP Settings

The settings below can be used for setting up a generic POP or IMAP account on most devices or mail clients that support POP or IMAP.

Need Assistance?
If you need any assistance entering these settings into your mobile device, we recommend providing these settings to your cellular provider and they can assist you with setting up your mobile device.

POP and IMAP settings
Use the information on this page if you need to use POP or IMAP to connect your mailbox.
