One Button Studio

Overview

The One Button Studio, located in the Jackson Library at Indiana Wesleyan University, is a simplified video recording setup that can be used without any previous video production experience. The design of the studio allows you to create high-quality and polished video projects without having to know anything about lights and cameras. You only need to bring your flash drive with you and push a single button.

• About the One Button Studio
  The One Button Studio simplifies the video production process, so that all users have to do is insert a thumb drive and push a button to begin recording.

• Audio and Video are Out of Sync
  What to do when the Audio and Video are not synchronized in your One Button Studio video recording.
